

Dear Sirs,

My name is Tere and Lee FitzGerald did an intervention on me in Feb of 2007. I was angry at my mother for hiring Lee because my mom doesn't have any money and because I felt ambushed. Lee was so kind that I felt that she really cared about me and then I found out she did the intervention for free.

I am coming up on 2 yrs sober and I will have Lee give me a cake just like I did last year. I was not an easy case either. I had breast cancer and had a double mastectomy and was addicted to my pain meds long after and smoking pot also.

Lee was compassionate but also didn't take any of my bs. Lee is a straight shooter and that is why I am glad my mom found her and not someone else.

Thank you, Tere Garduno
